Nebraska has the fifth highest number of abortion restrictions, but has the fifth lowest number of supportive policies in the country. If the health of women and children is truly a concern for the state, policymakers’ time and effort would be better spent increasing the number of policies that are known to support women and children, rather than enacting harmful abortion restrictions.

**TRAP / PROVIDER RESTRICTIONS**

1. Ambulatory surgical center standards imposed on facilities providing abortion
2. Hospital privileges or alternative arrangement required for abortion providers
3. Restriction on which health care providers may provide abortions
4. Gestational age limit for abortion set by law
